

CASE STUDY

ASHBURTON OPEN AIR SWIMMING POOL

MAKING A SPLASH FOR THE COMMUNITY

Ashburton Swimming Pool is a much-loved community facility that provides affordable opportunities for people of all ages to swim, exercise and stay active. Run by volunteers, the pool plays a vital role in promoting health and wellbeing, offering a safe and welcoming environment where residents, families, schools and visitors can enjoy regular physical activity.

The pool also provides children with the opportunity to learn essential life-saving swimming skills and creates a valuable social space where people can meet, connect and build friendships.

During the summer season it attracts visitors to Ashburton, supporting the local economy and helping to make the town an attractive destination.

Ashburton Town Council's Community Grants Scheme funding has helped improve the pool's facilities, ensuring it remains safe, accessible and enjoyable for everyone. These improvements have enhanced the experience for existing users while encouraging more residents and visitors to make use of this valuable community resource, helping to secure its future for years to come.

“

This funding has helped us improve an important community facility that benefits residents of all ages. Grants like this make a real difference to local organisations, enabling us to enhance the services we provide and ensure that valued community assets continue to thrive. Thank you for investing in the people and organisations that make Ashburton such a special place to live.
